# Child Resistant Over Caps

Safe, convenient and practical

Weener Plastics developed Child Resistant (CR) aerosol over caps for pesticides and household chemicals. The protective CR feature reduces the risk of children ingesting dangerous formulations packed in the aerosol. Aged individuals or people with disabilities however, can open the package conveniently.

The gloss, polypropylene caps are available in three diameters: 52, 57 and 65 mm. They fit on the valve of necked in aerosol cans.

They are child safe according to DIN ISO 8317/EN 238317

## NC 52/47

Diameter: 52 mm  
 Height: 47 mm  
 Material: PP  
 Finish: gloss
